WHEREAS, the Grantee desires to convey the waste water from the WWTP through a discharge or outfall pipeline (the "Pipeline") after its treatment in accordance with All Lawful Requirements, and to extract and convey water from the DesPlaines River in accordance with All Lawful Requirements;

WHEREAS, the Pipeline consists of (i) an existing pipeline or other enclosed underground conduit now existing within a portion of the Easement Premises (hereinafter defined) and (ii) a new underground pipeline (to be connected to the aforesaid existing pipeline) to be hereafter constructed by the Village within the Easement Premises at the location substantially as depicted in the attached Exhibit C which is incorporated herein by this reference and made a part hereof.

WHEREAS, the Grantee desires an easement from Grantor for (i) the construction of the new segment of the Pipeline within the portion of the Easement Premises as depicted in the attached Exhibit C, (ii) exclusive use, operation, repair and replacement of the Pipeline, for the sole purposes of conveying waste water from the WWTP which has been treated in accordance with All Lawful Requirements and of conveying water from the DesPlaines River in accordance with All Lawful Requirements, and (iii) for non-exclusive vehicular and pedestrian access to the Pipeline, all of the foregoing being at the sole cost and expense of Grantee; and Grantor is willing to grant such easement to Grantee, but only upon the terms and conditions of this Agreement and only with respect to the portion of Grantor's land legally described in Exhibit B which is incorporated herein by this reference and made a part hereof (the "Easement Premises").

NOW THEREFORE, in consideration for payment to Grantor in the amount of Ten Dollars (\$10.00) by Grantee, and for the mutual covenants and promises contained herein, the receipt and sufficiency of which are hereby acknowledged, the Grantor and Grantee agree as follows:

1. **Grant of Easement.** Grantor hereby quit-claims to Grantee and its successors and assigns, an easement (the "Village Pipeline Easement") over, across, underneath and through the Easement Premises for (i) the construction of the new segment of the Pipeline within the portion of the Easement Premises as depicted in the attached Exhibit C, (ii) exclusive use, operation, repair and replacement of the Pipeline, for the sole purposes of conveying waste water from the WWTP which has been treated in accordance with All Lawful Requirements and of conveying water from the DesPlaines River in accordance with All Lawful Requirements, and (iii) non-exclusive vehicular and pedestrian access to the Pipeline, all of the foregoing being at the sole cost and expense of Grantee. The Village Pipeline Easement shall be perpetual, subject however to termination as provided in Sections 2 and 7 hereof. The Parties hereby acknowledge and agree that the Village Pipeline Easement is appurtenant to the WWTP Site. Grantor shall not intentionally alter or change the Easement Premises in any way that would materially and adversely affect the Grantee's use and operation of the Pipeline in accordance with All Lawful Requirements, but Grantee acknowledges that Grantor does hereby expressly reserve the right to possess, occupy, improve and use the Easement

Premises in a manner that does not prohibit or unreasonably impede the Grantee's use and operation of the Pipeline in accordance with All Lawful Requirements.

2. **Term.** Other than by mutual written agreement of the Parties, this Village Pipeline Easement shall commence as of the date hereof and shall continue on a perpetual basis, unless and until such time as the Grantee shall either (i) cease to use the Pipeline for the purposes hereinabove permitted, and if such cessation shall continue for a continuous period of one (1) year, or (ii) a declaration by a court of lawful jurisdiction shall enter a final and non-appealable order declaring the an Event of Default has occurred hereunder.

3. **AS-IS Condition.** Grantee acknowledges and agrees that Grantor has not made, does not make and specifically disclaims any representations, warranties, promises, covenants, agreements or guaranties of any kind or character whatsoever, whether express or implied, oral or written, past, present or future, of, as to, concerning or with respect to (a) the nature, quality or condition of the Pipeline and/or the Easement Premises, including, without limitation, the water, soil or geology of the Easement Premises, (b) the income to be derived by Grantee or others from the Pipeline and/or the Easement Premises, (c) the suitability of the Pipeline and/or the Easement Premises for any and all activities and uses which Grantee may conduct therein or thereon, (d) the compliance of or by the Pipeline and/or the Easement Premises or its operation with All Lawful Requirements or any of them, (e) the habitability, merchantability or fitness for a particular purpose of the Pipeline and/or the Easement Premises, or (f) any other matter with respect to the Pipeline and/or the Easement Premises, and specifically that Grantor has not made, does not make and specifically disclaims any representations regarding solid waste, as defined by the U.S. Environmental Protection Agency regulations at 40 C.F.R., Part 261, or the disposal or existence, in or on the Pipeline and/or the Easement Premises, of any hazardous substance, as defined by the Comprehensive Environmental Response Compensation and Liability Act of 1980, as amended, and applicable state laws, and regulations promulgated thereunder. Grantee further acknowledges and agrees that, having been given the opportunity to inspect the Pipeline and/or the Easement Premises, Grantee is relying solely on its own investigation of the Pipeline and/or the Easement Premises and not on any information provided or to be provided by Grantor. Grantee further acknowledges and agrees that any information provided or to be provided with respect to the Pipeline and/or the Easement Premises was obtained from a variety of sources and that Grantor has not made any independent investigation or verification of such information. Grantee further acknowledges and agrees that, as a material inducement to the execution and delivery of this Agreement by Grantor, the conveyance of the Village Pipeline Easement as provided for herein is made on an "AS IS, WHERE IS" CONDITION AND BASIS "WITH ALL FAULTS." Grantee acknowledges, represents and warrants that Grantee is not in a significantly disparate bargaining position with respect to Grantor in connection with the transaction contemplated by this Agreement; that Grantee freely and fairly agreed to this acknowledgment as part of the negotiations for the transaction contemplated by this Agreement; that Grantee is represented by legal counsel in connection with this transaction and Grantee has conferred with such legal counsel concerning this waiver. If this Agreement is terminated, for whatever reason, at the request of Grantor the Grantee shall at its sole cost and expense remove so much of the Pipeline as did not exist in, on or under the Easement Premises as of the date hereof, and having removed same, Grantee shall forthwith comply with the restoration provisions in the preceding sentence of this Section 5.
